Do you think this issue is (Option 1) very important, (Option 2) important, (Option 3) a little bit important or (Option 4) not important - stop wasting time on it.

HOW IS THIS STILL A THING?
And Yet --- This is still a thing.

Why is this issue so hard to change?
Why is this issue difficult?

- There are 3 options - not just 2 -- so hard to reach 50%
- What people want is what the Feds won’t let you have.
- There is discomfort with being out of sync with neighboring states.
What is the Solution?

- Try and get people what they want (more daylight in the evenings) - even if that requires federal change.

- Couch the request in language that makes clear that the change will take place only when surrounding states also change.
Things are moving in the direction of stopping the changing of the clocks.

IN THE SENATE OF THE UNITED STATES
MARCH 6, 2019

A BILL

To make daylight savings time permanent, and for other purposes.
Making Daylight Saving Time permanent is O.K. with me!
